Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Laboratory Course in Physics of the Household: To Accompany Lynde s Physics of the Household This Laboratory Course in Physics of the Household covers the ground recommended by the College Entrance Board. It differs from similar courses in four ways: first, it contains Exercises in addition to the usual Experiments; second, it requires the use of the common weights and measures side by side with the metric weights and measures; third, it permits the use of much apparatus familiar to the student; and fourth, it encourages the student to set up a laboratory in his own home. The Exercises help the student to appreciate how physics is applied in his home and in his environment in general. The Exercises and Experiments together complement the classroom work. The use of the common weights and measures in addition to the metric weights and measures is justified, in the writers opinion, as follows. Since we require young students to take a laboratory course in physics in order that they may obtain knowledge which they will apply in...
