

Pediatric Radiological Signs: Volume I (Paperback)

Filesize: 3.63 MB

Reviews

It is fantastic and great. This is for those who statte there was not a worth looking at. Its been written in an exceptionally easy way which is only soon after i finished reading this ebook through which in fact changed me, change the way i really believe.

iUniverse, United States, 2005. Paperback. Book Condition: New. 230 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.This book offers a systematical, concise approach to a joint pediatric radiological sign of various diseases in the major body system. Each chapter starts with those signs concerned with the newborn period, continues through infancy and childhood to adolescence. It encompasses the congenital anomalies, inflammatory diseases, vascular disorders, tumors and metabolic diseases. The disease entities are arranged in an alphabetical order. The book is intended for the physician in Pediatric-Imaging or in General-Imaging, as well as for those in Pediatrics and its subspecialties. It may be of help to residents in the various professions who are confronted with their board examination. Medical students, in their clinical training, may also find assistance in making use of this reference guide.
