By Lanza, Michael

Beacon Press, 2012. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "This is a terrific blend of adventure ('Seeing a bison gallop thirty miles an hour-as they can-is like seeing a grand piano suddenly sprout horns and charge you with the speed of a horse.') and ecological forecasting (and forewarning) that aptly conveys the passion of a devoted outdoorsman, and serves as a wake-up call to the state of our planet." - Publishers Weekly " Before They're Gone is a beautifully written, moving meditation on the meaning of parenthood, our parks, and the first generation of children to grow up in the age of global warming."-Richard Louv, author of The Nature Principle and Last Child in the Woods "Intriguing premise; decent execution-certainly of interest to environmentalists and other eco-minded readers."- Kirkus Review "Michael Lanza braids a story of family, wilderness, and climate that's at once heartwarming and terrifying. I envy his kids for the incredible year they spent exploring America's finest wild places. And I mourn that they-and my own daughter-will have to endure the devastating consequences of our heating planet. Lanza makes abundantly clear that our children deserve better than the legacy we're leaving..."
