

The Integrated Data Hub, the Next Generation Data Warehouse: The Smartest Way to Deal with the Data Integration Challenges (Paperback)

By Dario Mangano

Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Please note that I am not very happy with the Kindle version. -----

----- Dario Mangano obviously spent a great deal of time and effort on his book. It is quite lengthy and very detailed. It is presented in a very organized fashion. He began by including a historic background and then explaining the Integrated Data Hub concept. He also created an actual plan for others to follow by explaining and detailing his ideas. It s amazing! He is extremely thorough, writing chapter after chapter, dealing with various components that the reader needs to understand. In the forward by Hans Hultgren, Hans writes, This book is a guide to a successful data warehousing business intelligence (DWBI) program. I believe that this could be a really useful book to many people, an actual how to guide for them to utilize in implementing their own program. I was so impressed by his attention to visual affects in his book. Many people are visual learners. Mangano draws them into reading and using his work by adding pictures, diagrams, highlighting...
